Submitted: - I have inspected the site of proposed construction of first floor building over the existing house bearing No. 11-11-211/2/203/47/276

Situated in plot no 32 Survey 45 at Sanjay Nagar. During the inspection it is observed that the applicant had obtained building permission for the

construction of ground floor house vide this office proceedings B/11/213/100/2005 dt 28.12.2005. But the applicant had constructed the building in

violation to the sanctioned plan approved by this office. The applicant has not regularized his house which was constructed in violation of sanctioned plan under B.P. scheme. Now the applicant filed application along with plans seeking permission for the construction of first floor over the existing ground floor house which was constructed in violation to the sanctioned plan.

Therefore, the permission may not be granted unless the existing ground floor house is being down in conformity with sanctioned plan and building application and self Technical drawing form not filled properly.
